## Fraxel LASER TREATMENT

*It's like digital skin retouching!*

Fraxel Laser Treatment is a non-invasive, non-ablative laser treatment that uses a series of tiny laser pulses to stimulate the skin's natural healing process. This process creates microscopic injuries in the skin, which then heal by producing new, healthier skin cells. Fraxel Laser Treatment is effective for treating a variety of skin conditions, including wrinkles, sun damage, acne scars, and pigmentation. The treatment is performed in a series of sessions, and the results are visible immediately after each session. Fraxel Laser Treatment is a safe and effective way to improve the appearance of your skin.

Fraxel Laser Treatment is a safe and effective way to improve the appearance of your skin.

The Fraxel laser is the digital approach to touching up the imperfections of the skin, pixel by pixel.

So the Public May Know the Truth

# Hypertension Control and Affordable Medicines

## In the interest of truth

*A unique corporate commitment, not marketing scheme, a willing partnership with the medical community and the patients' adherence to their treatment regimen can help control hypertension in our country.*

Hypertension remains a widespread problem in the Philippines. Its complications (stroke, stroke, and kidney failure) continue greatly to impact it as leading cause of disability and death in these areas.

There are an estimated 7 million hypertensive Filipinos. Many health experts believe that about 90% are inadequately treated with the disease, leaving them, thus, cannot afford their health costs.

### CONCERN FOR PATIENTS... OR A MARKETING SCHEME?

Plavac's Antihypertensive formula is the largest selling antihypertensive drug in the Philippines with sales of P1.2 billion from August 2008 to September 2010, representing about 80% of the total sales of P1.5 billion for the top 10 antihypertensive drugs in the country.

Although Plavac came out with a generic program offering a 50% discount, only a handful of patients can avail of it. If Plavac were truly sharing about its income for patients, it should have:

- 1. not implemented a 50% price increase prior to announcing the 50% discount scheme;
- 2. not made the scheme available to only a limited number of patients.

HYDRALAZINE FREE DISCOUNT OFFERS			
BIDDING DISCOUNT OFFERS			
Quantity	Original Price	Discounted Price	%
1 kg	54.00	44.75	17%
10 kg	62.50	74.75	47%

AMARVAC VS. NORVASC® PRICING			
Quantity	AMARVAC	NORVASC®	%
1 kg	54.00	44.75	60%
10 kg	62.50	21.25	66%

There is a perception that this is only a temporary marketing scheme to protect Plavac's market share against its 50%. This perception is also supported by the fact that Plavac made an unprecedented 50% price increase prior to implementing their discount program. It's a perception that is still out there because scheme to share all categories.

Is Plavac's discount program just a knee marketing scheme to protect the contribution of the new brand AMARVAC, which is 50% lower than Plavac?

Is the lower systolic pressure being marketed by Amavac, a division of Plavac. The company has long been marketing Plavac's generic medicines, which were delivering quality, affordable cardiovascular and anti-diabetic medicines to all Filipinos.

Conversely to Plavac's claims, AMARVAC (antihypertensive) has been shown to be a well-tolerated antihypertensive drug in the scientific methods of Antihypertensive formula.

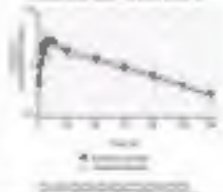

AMARVAC has passed the stringent evaluation of the Philippine Food and Drug Administration (FDA) and has been shown to be bioequivalent to Antihypertensive formula. Thus, it is a pharmaceutical alternative to Antihypertensive formula. It also conforms to international guidelines such as the US FDA, European Medicines Agency, and the WHO guidelines all of which state that a bioequivalence study is the widely accepted means of demonstrating therapeutic equivalence of two drugs.

Furthermore, the WHO Atlas of the Science and Practice of Pharmacy by Amavac, a detailed medical information available and the pharmacy students state that "the ability to change the internal properties of the active agent".

Both AMARVAC and Antihypertensive formula contain the same active ingredients (pharmacology), but with different salts. These have shown comparable chemical stability and safety. These two AMARVAC and Antihypertensive formula are comparable side effects.

### AMARVAC Shows Money Side

Money is Amavac's 10th priority

Therefore the change of salt does not change the efficacy, safety, and overall clinical value of Antihypertensive. But it does change the cost, making AMARVAC 60% more affordable than Antihypertensive formula.

### PHYSICIANS STILL DECIDE THE BEST CASE

The Filipino physicians are in a better position to evaluate and Guide whether AMARVAC may be substituted for Antihypertensive formula. The right of the Filipino patients, with the advice of their physicians, to choose the best antihypertensive drug is based to their confidence and freedom must always be respected.

Under Amavac and Amavac™ are generic drugs and should only be used for patients who are not able to afford.

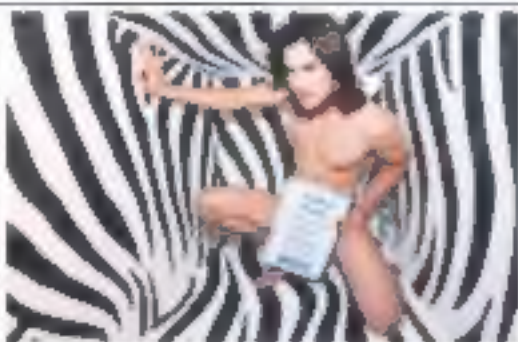

Cardio-metabolic partner for life

Amavac Inc.

"Many in Filipinos, Make in Filipinos"

# DOLE: Double pay for Boni Day work

MANILA (AP) — President Corason Aquino has ordered that government workers be paid double their regular salaries for work on Bonifacio Day, the national holiday observed on the island of Luzon.

The president's order, which was signed last night, also provides for double pay for government workers who work on the day after the holiday, which is a Monday.

The order also provides for double pay for government workers who work on the day after the holiday, which is a Monday.

# US hospital boom a boon for RP nurses

MANILA (AP) — The United States is expected to have a shortage of 100,000 nurses by the year 2000, according to a report by the American Nurses Association.

The report says that the shortage will be most acute in the areas of intensive care, oncology, and pediatrics.

The report also says that the shortage will be most acute in the areas of intensive care, oncology, and pediatrics.

# Bill to protect Verde Island marine area

By Peter J. Brown

VERDE ISLAND, a small, rocky, and uninhabited island in the Pacific Ocean, is the focus of a new bill introduced in the U.S. House of Representatives. The bill, H.R. 1000, is titled "Verde Island Marine Area Protection Act." It was introduced by Rep. Peter J. Brown (D-Calif.) on Oct. 10. The bill would establish a marine area around Verde Island, which is located in the Pacific Ocean, about 100 miles off the coast of California. The area would be protected from commercial fishing and other activities that could harm the marine life. The bill also would establish a fund to pay for the costs of protecting the area. The bill is expected to pass the House in the near future.

## Military has best minds to run DOTC—Mendoza

By Peter J. Brown

SEN. JOSE MANUEL MENDEZA (D-Calif.) has introduced a bill to transfer the Department of Transportation to the Department of Defense. The bill, S. 1000, is titled "Department of Transportation Transfer Act." It was introduced on Oct. 10. Mendoza argues that the military has the best minds to run the DOTC, and that the DOTC should be transferred to the Department of Defense. He says that the DOTC is a "military" agency, and that it should be run by military personnel. The bill is expected to pass the Senate in the near future.

## The Daily Cow

By Peter J. Brown

THE DAILY COW is a new newspaper that is published in the city of Los Angeles. It is a small, weekly newspaper that is published on Wednesdays. The newspaper is owned and operated by Peter J. Brown. It is a "cow" newspaper, and it is published in the city of Los Angeles. The newspaper is expected to be a success.

## Toxic Incidents

**O**ne of the most serious threats to the health of the Filipino people is the increasing number of toxic incidents that are occurring in the country. These incidents are caused by the use of toxic substances in the environment, in the workplace, and in the home.

### Editorial

The use of toxic substances in the environment, in the workplace, and in the home is a major threat to the health of the Filipino people. These substances are used in a variety of ways, and they can cause a wide range of health problems.

## Pesticide poisoning downs 79 people

Debate in Davao City rages over proposed ban on aerial sprays

DAVAO CITY, Nov. 10 (AP) — A debate over whether to ban aerial spraying of pesticides in Davao City has intensified, with health officials warning of a resurgence of dengue fever and other mosquito-borne diseases if the practice is not stopped.

The city government, led by Mayor Rodrigo Duterte, has proposed a ban on aerial spraying, citing concerns over the health of residents and the environment. The ban is part of a broader effort to control the mosquito population and prevent the spread of dengue fever, which has caused several deaths in the city in recent years.

However, the agricultural sector, which relies heavily on pesticides, has expressed strong opposition to the ban. Farmers and agribusinesses argue that aerial spraying is an effective and efficient way to control pests and protect their crops. They claim that the ban would lead to a significant loss of income and jobs in the agricultural sector.

The debate has also drawn the attention of national and international health organizations, which have urged the city government to take immediate action to control the mosquito population. The World Health Organization (WHO) has reported a global resurgence of dengue fever, with millions of people infected each year.

The city government has announced that it will continue to hold consultations with various stakeholders, including farmers, health officials, and the general public, to reach a consensus on the issue. It has also launched a public awareness campaign to educate residents about the risks of dengue fever and the importance of mosquito control.

## Factory owner sued for toxic chemicals

MANILA, Nov. 10 (AP) — A factory owner in Manila has been sued for allegedly dumping toxic chemicals into the city's water supply system, causing illness and death among residents.

The lawsuit was filed by a group of residents who claim that they have been suffering from various health problems, including skin rashes, respiratory issues, and even cancer, since the factory started operating in the area. They argue that the factory is responsible for the contamination of the water supply and demand compensation for the damages caused.

The factory owner, however, denies the allegations and claims that the chemicals are used in a safe and controlled manner. He argues that the water supply system is not contaminated and that the residents' health problems are unrelated to the factory's operations.

The case has drawn the attention of local and national authorities, who are investigating the allegations. The city government has announced that it will conduct a thorough inspection of the factory and the water supply system to determine if there is any contamination. It has also launched a public health campaign to educate residents about the risks of drinking contaminated water.

Figure 1 consists of 12 scatter plots arranged in a 2x6 grid. The top row shows the relationship between the number of children (0 to 10) and the number of parents (0 to 10). The bottom row shows the relationship between the number of children (0 to 10) and the number of parents (0 to 10). The plots show a positive correlation between the number of children and the number of parents.

Heating  
a blessing

Figure 1 consists of nine maps arranged in a 3x3 grid, labeled (a) through (i). Each map shows a geographical area with a color scale from 0 to 100. The maps show the progression of the event from the Pacific Ocean towards the Americas. (a) shows the event in the Pacific. (b) shows the event in the Pacific and the Americas. (c) shows the event in the Pacific and the Americas. (d) shows the event in the Pacific and the Americas. (e) shows the event in the Pacific and the Americas. (f) shows the event in the Pacific and the Americas. (g) shows the event in the Pacific and the Americas. (h) shows the event in the Pacific and the Americas. (i) shows the event in the Pacific and the Americas.

## TSPT's communities of hope amid sea of poverty

The first two authors are responsible for the manuscript.

**Abstract**

Figure 1 consists of two diagrams, (a) and (b), illustrating the proposed model. Diagram (a) shows a network with an input layer, a hidden layer, and an output layer. The input layer has nodes labeled  $x_1, x_2, \dots, x_n$ . The hidden layer has nodes labeled  $h_1, h_2, \dots, h_m$ . The output layer has nodes labeled  $y_1, y_2, \dots, y_p$ . The network is connected by weights  $w_{ij}$  and bias terms  $b_i$ . A feedback loop is shown with a delay element  $z^{-1}$ . Diagram (b) shows a similar network architecture but with a different feedback loop configuration, including a summation node and a delay element  $z^{-1}$ .

# After Islam, Pope moves to heal ties with Orthodox

By the way, the Pope's move to heal ties with the Orthodox is a significant step in the history of the Catholic Church. It is a move that has been long overdue. The Pope's move is a sign of his desire to bring about a new era of peace and understanding between the two churches. The Pope's move is a sign of his desire to bring about a new era of peace and understanding between the two churches. The Pope's move is a sign of his desire to bring about a new era of peace and understanding between the two churches.

Pope John Paul II and a member of the Eastern Orthodox Church in conversation. The Pope's move is a sign of his desire to bring about a new era of peace and understanding between the two churches.

A person walking through a snowy, wooded area. The person is wearing a dark coat and a hat, and is walking away from the camera. The trees are bare and covered in snow, creating a serene and somewhat somber atmosphere.

## Leader of Chinese Christian sect, 11 followers executed

The leader of a Chinese Christian sect, along with 11 of his followers, has been executed. The sect was known for its extreme beliefs and practices, and its leader was accused of leading his followers into a life of violence and fanaticism. The execution was carried out by the Chinese government, which has been known to crack down on religious groups that it perceives as a threat to its stability.

## Jailed Chinese wins Golden Pen

A Chinese writer who has been imprisoned for his political views has won the Golden Pen award. The award is given to writers who have made significant contributions to Chinese literature. The writer's work has been praised for its depth and insight into the human condition, and his imprisonment has only served to strengthen his reputation as a bold and courageous voice.

# US panel to recommend troop pullout from Iraq

**Panel to recommend troop pullout from Iraq**  
 A panel of experts will recommend the US pull out its troops from Iraq by the end of 2011, according to a report by the House of Representatives.

The panel, which is part of the House of Representatives, will recommend the US pull out its troops from Iraq by the end of 2011, according to a report by the House of Representatives. The panel is part of the House of Representatives, which is the lower house of the US Congress. The panel is made up of members from both the House and the Senate. The panel is expected to release its report in the coming weeks. The report is expected to recommend that the US pull out its troops from Iraq by the end of 2011. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in Iraq. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in Iraq. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in Iraq.

## North Korea to get all troops out by end of 2011

North Korea is expected to get all its troops out of the Korean Peninsula by the end of 2011, according to a report by the House of Representatives. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in North Korea. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in North Korea. The report is expected to be a landmark decision for the US, as it would mark the end of the US military presence in North Korea.

## Business confidence soars to 5½-year high

By The Staff  
 PHILADELPHIA — Business confidence in the U.S. has risen to its highest level in five and a half years, according to a survey released today by the Conference Board. The survey, which is a key indicator of business sentiment, shows that confidence among U.S. business executives has risen to 88, up from 85 in November and 82 in October. The survey also shows that business executives expect sales to rise in the next six months, up from 68 in November and 65 in October. The survey also shows that business executives expect employment to rise in the next six months, up from 65 in November and 62 in October. The survey also shows that business executives expect the economy to grow in the next six months, up from 65 in November and 62 in October. The survey also shows that business executives expect the economy to grow in the next six months, up from 65 in November and 62 in October.

*It's not easy work*

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a training program with a focus on the specific skills required for the task. The results of the training program were compared between the two groups.

# LIVING *Stars*

Read it, believe it, or don't believe it, it's all yours.

With original features and news, the magazine is yours.

## Jolene's home on the road

It all started when Jolene found the white Peugeot 407 she bought for her mobile home. It's really a "home" because she has everything she needs inside. Page 50

### BOOKS

With the holiday season just around the corner, it's time to start thinking about the perfect gift for the book lover in your life. Here are some suggestions for the best books to read this season.

### Books

The first book on our list is "The Secret" by Rhonda Byrne. This book has become a bestseller and is a great read for anyone looking for a positive outlook on life. The second book is "The Power of Now" by Eckhart Tolle. This book is a classic and is a great read for anyone looking for a deeper understanding of themselves and the world around them.

**WEEKLY PRIZE POT**

The more you shop, the bigger the prize

**4 MILLION**

in cash or goods to be won over 336 winners

by Dec 31, 2006

1. Buy any product from the participating brands

2. Collect the scratch-off code on the product

3. Register the code on the website

4. Win a prize

Prize Pool: Dec 1 - 31, 2006

1st Prize: 4,000,000

2nd Prize: 1,000,000

3rd Prize: 500,000

4th Prize: 250,000

5th Prize: 100,000

6th Prize: 50,000

7th Prize: 25,000

8th Prize: 10,000

9th Prize: 5,000

10th Prize: 2,500

11th Prize: 1,000

12th Prize: 500

13th Prize: 250

14th Prize: 100

15th Prize: 50

16th Prize: 25

17th Prize: 10

18th Prize: 5

19th Prize: 2

20th Prize: 1

This film is a bottom-up look for the busy star

The actress is a top talent in the industry

A woman in a blue shirt and red headscarf is seen in a kitchen, looking at a camera. The text 'tolens' figure on the road' is overlaid on the image.

The actress is a top talent in the industry

**This season, give the gift that lasts.**

*(And we're not talking about fruit cake!)*

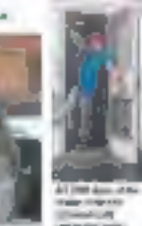

For the gift that lasts, there's no better choice than a gift card. It's the perfect way to show your love and support for the people you care about. And it's the perfect way to make sure your gift is the one that lasts.
